# Hammond Tractor: Big jobs, big dealership

BY RICH LIVINGSTON  
*Freelance Writer*

When there's big work to be done outdoors – on the farm, on the golf course, on the woodlot, on the jobsite, or in your own backyard – the right equipment at the right price is always available from Hammond Tractor, New England's largest John Deere Gold Star Certified dealership and source for farm, garden, commercial, golf and turf and commercial chipping tractors and gear.

For more than a quarter of a century, Hammond Tractor has been providing a full range of outdoor tractors, implements, blowers, mowers, pumps and generators. This has been a big year for snowblowers, of course, and the crew is preparing for its busy spring season when the blowers move to the back of garages, lawn and garden equipment is deployed, and outdoor commercial work ratchets up after the spring thaw.

After acquiring the former Deleko Brothers dealership, Hammond Tractor moved to its comfortable new four-season showroom, conveniently and prominently located on Minot Avenue in Auburn in August of last year. With additional locations in Union and Fairfield, Hammond Tractor has a staff of 90, and a massive inventory of all sizes of tractors suited to every size job and site.

Hammond Tractor is Maine's largest dealer of heavyweight performance tractors from Mahindra, and northern New England's largest golf and turf equipment dealership, as well. Hammond represents more than two dozen major brands of outdoor equipment, including Woods and Kuhn tractor implements and a large line of Honda power equipment such as generators, lawnmowers, pumps and more. There's a wide range of used equipment and even an array of kid-sized John Deere gear.

Hammond Tractor is dedicated to homeowners and small farmers, although the company stocks, sells and services work-

horse tractors and commercial sitework equipment including mini-excavators and specialized agricultural tractors equipped with GPS fertilizer monitoring technology, enhanced emissions controls and the latest ergonomically correct operator features.

The business is built on the combination of superior service with a staff of thoroughly experienced certified technicians, combined with a huge inventory. Hammond continues to service equipment that has been in the field for a decade or more, and has computer access to the lifetime history of every John Deere tractor brought to its service department.

Family owned for more than a generation, the entire staff is dedicated to fulfilling Hammond Tractor's motto of "Committed People, Exceptional Value."

"It's all about helping to get

the job done, and get it done right," com-

mented Stan Spilecki, general manager in Auburn recently, "whether it's yard work, at the job site, or out on the farm. Maintaining a huge inventory means that we can meet whatever needs come up. Having an experienced, professional service team means that we can keep your equipment functioning at its best, too."

The Web site, [www.hammondtractor.com](http://www.hammondtractor.com), provides convenient links to all the brands carried at all the Hammond locations, making it easy to find the right equipment for the job. Back yard or back 40, Hammond Tractor has what it takes to cut the work down to size.

Hammond Tractor Company in Auburn can be reached by phone at 207-783-2591. The company's Web site is [www.hammondtractor.com](http://www.hammondtractor.com).
